Wireless. Portable. Security.

Portable Lift Kits

- Heights - 9 to 20 feet
- Automatic or manual operation
- Lightweight stainless steel construction
- Compact for transport or storage
- Hardcase or backpack version

Communications

- 2.4 GHz Wireless Radios
- Cellular Radios GSM/HSDPA/CDMA
- Meshed Networking
- Scalable Networks
- Long Distance Communication
- Enables remote installation

Sensor Fusion Processor

- Fusion of multiple sensors (wireless or wired)
- Use with Multiple Cameras including
 - Infrared/Day Video @30 FPS
 - Pan/Tilt/Zoom
- H.264 High Compression Video Encoding
- Environmentally designed to MILSTD-810E

Remote Base Station

- Monitors multiple sensors and cameras
- Displays 16 video streams per station
- Map Display using GPS coordinates
- Tracks Intruder's Location
- Monitors Sensor Health
- Panasonic CF-52 Laptop Computer

Optional Features

- Wireless Remote Intrusion Detection Sensors
- Radar Detection Sensors
- Universal Power Supply
- Solar Power System
- Battery Backup
