

MISSION-DRIVEN INNOVATION

# ENGINEERING

## OVERVIEW

Effective engineering is about the alignment of excellence in technology, people, resources, and business processes coming together to achieve success. With 25 years of proven experience in engineering and integration solutions, STS knows how to make it happen. Our in-house engineering services and integrated solutions capabilities enable STS to offer a customer-driven, tailored approach to our customers' engineering service's needs. Each customer receives a personalized solution that focuses on its unique requirements and needs rather than the complexities and risks of managing multiple vendor integration efforts.

We have manufacturing facilities, relationships with OEMs, and a deep bench of subject matter experts that allows us to rapidly scale engineering efforts of various scope and size. Our Agile Engineering approach uses model-based systems engineering (MBSE) coupled with risk-based "iterative cycles" to quickly deliver low-risk solutions. We can build in additional functionality and capability, as budgets and schedules allow. Our engineering services and integrated solutions maximize best value, mitigate risks, and optimize operational efficiency. That's how we make our customers successful. That's how we enable mission success.

## CAPABILITIES & DOMAINS

ENGINEERING

TRAINING &  
SIMULATION

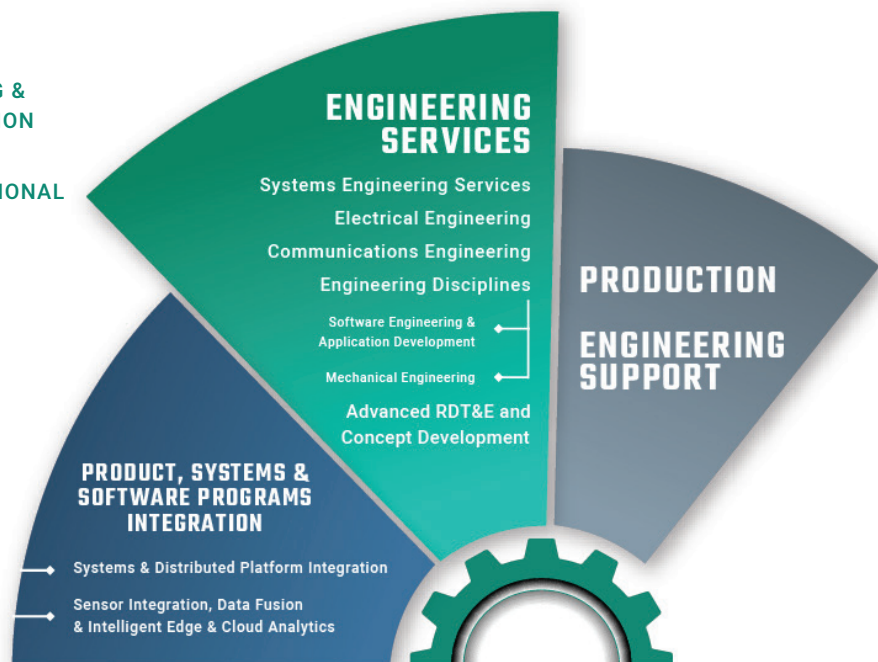

ENTERPRISE ASSET &  
LOGISTICS MANAGEMENT

PROFESSIONAL  
SUPPORT

- ◆ C6ISR

- ◆ MEDICAL TRAINING & SIMULATION

## ENGINEERING CAPABILITIES

## MISSION

Our goal at STS is to achieve mission-success for our clients in Defense, Homeland, and National Security by dedicating ourselves to the principles of innovation, agility, and excellence. What makes STS unique is our ability to swiftly meet our client's needs while sustaining an organization with global operations and a mature infrastructure to support enterprise, end-to-end solutions. Our solutions maximize best value, mitigate risks, and optimize operational efficiency.

*“So the quality product is made rapidly, and it’s produced rapidly for the end user. That’s where our legacy is.”*

*- Tom Thomas, Director, Growth*

*“At the end of the day, we really want to be that ‘trusted partner’ for our customers, in helping them achieve their mission. Our success is, after all, measured based on their success.”*

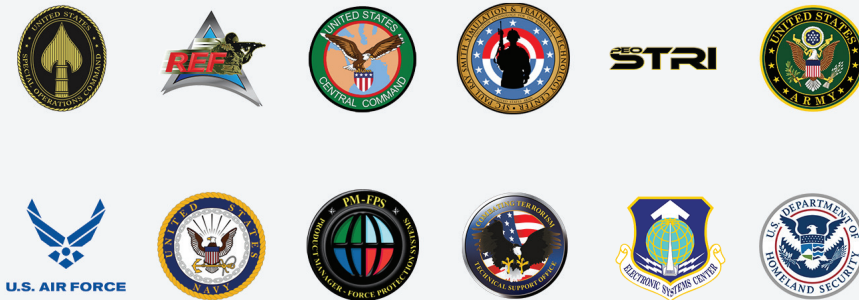

*- Cecilia Wu, Director, Project Management Office*

## EMPLOYEE FACT HIGHLIGHTS
