

DRAGONFLY™

a fly-away kit for missions at the edge

What is DragonFly™?

DragonFly™ is a powerful, expeditionary fly-away kit (FLAK) designed to support missions at the edge. With artificial intelligence/machine learning (AI/ML) and cloud and local level processing platform hybrid capabilities, DragonFly™ is designed to leverage advanced software with or without cloud connectivity in austere or remote locations.

Engineering experts developed this highly configurable, crew serve platform to support attack, hunt, and analytics capabilities. DragonFly™ accommodates customized software, has removable hard drives, and can be quickly refitted for seamless mission deployments. Examples of how DragonFly™ may be used include: Red Teams, High Volume Data Ingestion, Defensive Operations, Incident Response, Onsite Deep Neural Network Training, and any other mission requiring high-performance computing.

Features	Benefits
<ul style="list-style-type: none">• Custom cooling hardware• Airline carry-on size and weight• Integrated storage for cabling and accessories• Modular Acceleration Cards	<ul style="list-style-type: none">• Fully customizable toolsets• Supports defensive and offensive cyber missions• Independently designed hardware enables AI/ML• Supports virtually any mission type
<ul style="list-style-type: none">• Easy Tabletop Setup	<ul style="list-style-type: none">• Cleared technicians design, engineer, and manufacture DragonFly™ in the United States for maximum supply chain security
<ul style="list-style-type: none">• Mission specific software loads	<ul style="list-style-type: none">• Fits in custom server carry-on bag for maximum mobility• Removable drives are usable in classified environments

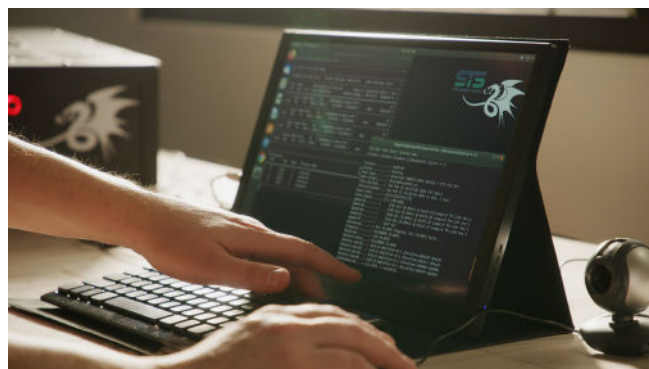

DRAGONFLY™

a fly-away kit for missions at the edge

DragonFly™ is the ultimate platform in power, flexibility, and mobility for use in classified environments.

Designed to fit in a custom carry-on bag.

DragonFly™ accommodates customized software packages and supports virtually any mission type.

About STS International

STS is an ISO 9001:2015 agile business with twenty-seven years of experience providing integrated, secure solutions and services to the federal government in the areas of Engineering, Enterprise Asset and Logistics Management, Training and Simulation, and Professional Support Services. In 2018, the *Washington Business Journal* named STS a “Contractor to Watch” and, in 2019, Inc. 5000 honored STS for the sixth year in a row as one of America’s Fastest Growing Private Companies.
